"They say Roger Stone lied to Congress." @CNN OH, I see, but so did Comey (and he also leaked classified information, for which almost everyone, other than Crooked Hillary Clinton, goes to jail for a long time), and so did Andy McCabe, who also lied to the FBI! FAIRNESS?

Here's an article Covington atty Kelner wrote praising his buddy DOJ (Mueller prosecutor) Van Grack, in a mutual admiration society over their FARA "expertise" insidepoliticallaw.com/2019/03/10/u-s... Covington billed @GenFlynn \$5 million & made FARA errors that got Flynn indicted @SidneyPowell1

It certainly seems Hart had no place on the Stone jury. The Supreme Court
has repeatedly declared that the "minimal standards of due process"
demand "a panel of impartial, indifferent jurors." Hart's record suggests little
that is impartial or indifferent.

Juror 1261 in Roger Stone's case: Was justice undone?
There is serious question as to whether the conviction itself should be
reevaluated.
